TAKE CONTROL OF YOUR WORK COMP COSTS WITH EXPERIENCE MOD ANALYSIS

Combined Mod and ARAP Impact on Premium

In some date, compare the control field window (or premium of the control field window). The control field window (or premium of the control field window) and the control field window (or field window) for field window) for field window (or field window) for field window) for field window (or field window) for field window) for field window (or field window) for field window) for field window (or field window) for field window) for field window) for field window (or field window) for field window) for field window (or field window) for field window) for field window) for field window (or field window) for field window) field window) for field window) field

Realize your company's full potential for cost savings with a complete mod analysis by Olson & Olson, Ltd. We can help you better understand your mod rating and determine just how much you could be saving on your work comp premiums. Using your loss history information we can work together to create a targeted loss control program to decrease your total costs. Contact Olson & Olson, Ltd today to learn more.

OLSON& OLSON Ltd Cash in on your most powerful cost saving tool: the mod.

RE-EVALUATE YOUR GOALS

Remember, a mod score of 1.0 is only average—the equivalent of a "C" on a report card. Don't be satisfied with average. Target your cost centers, reduce your mod and achieve your best with loss control.

DISCOVER COST DRIVERS

We expose problem areas and understand the full impact of the mod. We examine loss trends to better understand why your losses happen and how to prevent them. From there we can help you explore and act on opportunities for improvement.

ISOLATE AND IMPLEMENT

By refining our focus, we can develop powerful, customized loss control solutions. We make the most of strategic cost-saving opportunities to improve your work comp program and decrease your costs.

STAY AHEAD OF THE CURVE

Mod analysis can better prepare you for the future. Increase the accuracy of your cost allocation and risk management decisions. Know what to expect by forecasting for future concerns, like changes in payroll or loss trends.
